

XG-WS010

Wireless Indoor Siren

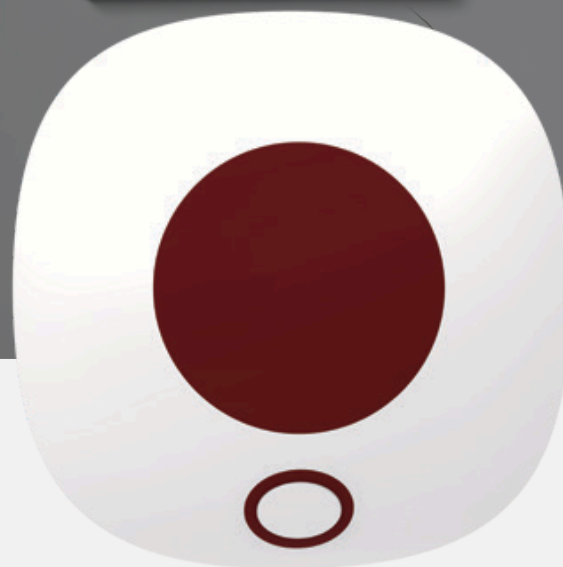

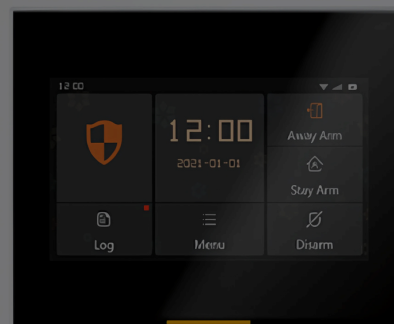

Overview

The XG-WS010 is a powerful and efficient indoor wireless siren designed to work with 433MHz alarm systems. It emits a loud 85dB alarm to effectively deter intrusions and alert occupants during security breaches. This unit features a dual power system—a plug-in AC100–240V supply and a built-in 3.7V/5000mAh lithium backup battery, ensuring continuous protection even during power outages.

With a sleek, compact design, the XG-WS010 is ideal for wall-mounted or surface installations in residential and small business environments. Its stable wireless performance and fast response time make it an essential component in any modern wireless security setup.

Key Feature

Loud Alarm Output:	Emits an 85dB sound to alert and deter intruders
Backup Battery:	5000mAh lithium battery ensures continued operation during power loss
Dual Power Supply:	Operates on AC100–240V with automatic battery backup
Low Standby Current:	Energy-efficient with just 10mA in standby mode
Wireless Operation:	Communicates using 433MHz frequency
Modern Compact Design:	Easy to install and blends well with indoor environments

Application

Ideal for homes, offices, retail stores, and small businesses, the XG-WS010 provides effective audio alerts when connected to a wireless alarm system. It enhances indoor security with strong visual and auditory presence, especially in main halls, entryways, and security zones.

Specification

Model Number:	XG-WS010
Power Supply:	AC100–240V
Battery:	Built-in 3.7V / 5000mAh lithium battery
Standby Current:	10mA
Alarm Current:	200mA
Wireless Parameters:	433MHz
Alarm Volume:	85dB
Product Size:	90 × 90 × 45 mm
