

XG-C415L

Fire Strobe Sounder

Overview

The XG-C415L is a compact yet powerful fire strobe sounder designed to provide reliable audio-visual alarms during fire emergencies. Operating on a flexible DC 6–24V range, it delivers a sound pressure of over 90dB at 1 meter, ensuring quick awareness and response.

With low working current (5–50mA) and robust ABS construction, it's ideal for energy-conscious applications without compromising performance. Its bold red color and durable design make it suitable for various indoor safety systems.

Key Feature

Strong Sound Output:	Alarm pressure >90dB @ 1m for clear audible alert
Wide Voltage Support:	Operates from DC 6V to 24V for system flexibility
Low Current Consumption:	Efficient operation with 5–50mA draw
Compact Size:	Ideal for smaller spaces or wall-mounted use
Reliable Performance:	Flame-retardant ABS casing and bold red color
High Environmental Tolerance:	Operates in tough indoor conditions

Application

Perfect for residential buildings, small offices, utility rooms, and indoor public areas, the XG-C415L ensures fast, visible, and audible fire alerts in compact environments.

Specification

Model Number:	XG-C415L
Operating Voltage:	DC 6–24V
Working Current:	5–50mA
Alarm Sound Pressure:	>90dB @ 1m
Operating Temperature:	-10°C ~ +50°C
Operating Humidity:	≤95% RH (no condensation)
Material:	ABS
Color:	Red
Dimensions:	L105 × W105 × H89 mm
