

# UB-200

## FRAMLESS GLASS DOOR BRACKET

### Glass Mounting Solution for Frameless Doors

The UB-200 Glass Holder is designed to integrate with the armature plate housing of magnetic locks, providing a secure and durable solution for frameless glass doors with a thickness of 9mm to 12mm.

Crafted from high-quality stainless steel, it ensures a firm hold and long-lasting durability.

### Key Feature

Durable Stainless Steel Construction:	Built from high-quality stainless steel, ensuring long-term durability and resistance to corrosion.
Strong Holding Mechanism:	Equipped with a rubber plate and steel plate to provide a secure grip on the glass for reliable stability.
Magnetic Lock Compatibility:	Designed to integrate seamlessly with magnetic lock armature plate housings for enhanced security.
Optional Brackets:	Compatible with EB-200 or EB-220 brackets for additional flexibility in installation.
Frameless Glass Design:	Perfect for frameless glass doors, maintaining a sleek and modern appearance.
Accommodates Glass Thickness:	Suitable for glass with thicknesses ranging from 9mm to 12mm, providing versatility for different door designs.

#### Magnetic Lock Installations:

Specifically designed to hold the armature plate of a magnetic lock, ensuring a secure and reliable installation on frameless glass doors.

#### Frameless Glass Doors:

Ideal for frameless glass doors in office buildings, retail stores, and modern residential homes, providing a sleek and durable locking solution.

#### Access Control Systems:

Suitable for integration with electronic access control systems in secure facilities, ensuring that magnetic locks function effectively with glass door setups.

#### Interior Glass Partitions:

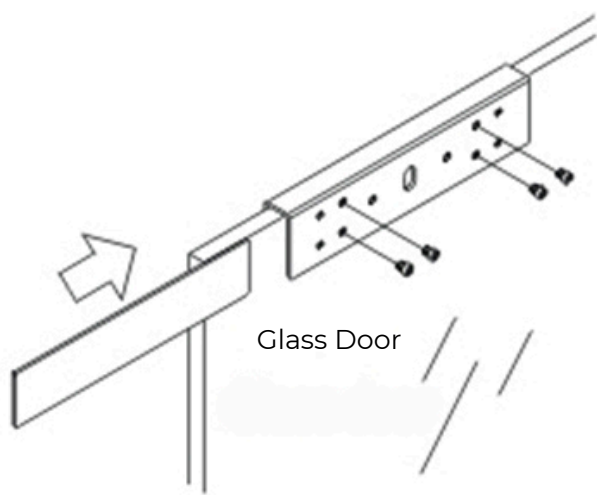

Can be used for securing glass partitions in office spaces, ensuring privacy while maintaining an open and modern look.

#### Retail Display Cases:

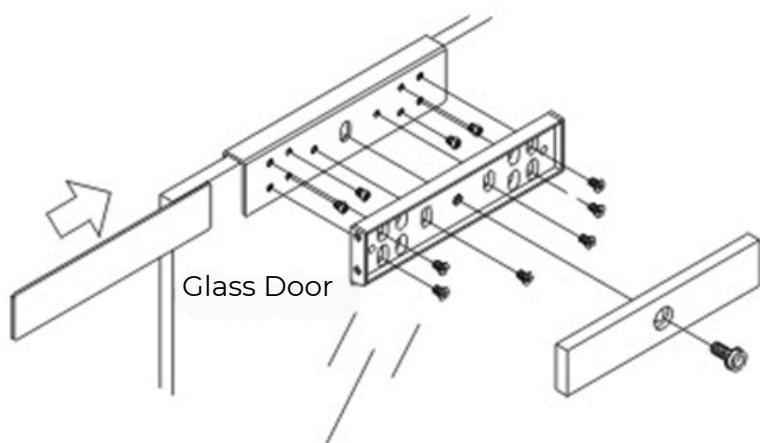

Provides a sturdy mounting solution for glass in retail display cases, enhancing both security and visibility for showcased items.

# Installation

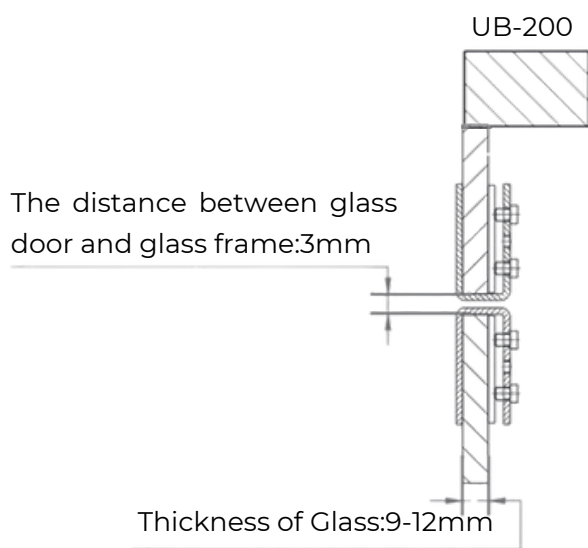

## Install Method 1

## Install Method 2

## Install Method 3

## Application:

- Office Buildings: Ideal for securing frameless glass doors in office entrances, meeting rooms, and interior glass partitions, ensuring a sleek and secure design.
- Retail Stores: Perfect for use in glass storefronts and display cases, providing both security and a modern aesthetic.
- Residential Homes: Suitable for modern homes with frameless glass doors, such as patio doors, shower enclosures, or interior glass panels.

## Specification:

Model Number:	UB-200
Holding Mechanism:	Features a rubber plate and steel plate to ensure strong, secure holding.
Dimension:	193 x 45.5 x 21 mm
