XG-80DC04

Wired Metal Door Contact

Overview

The XG-80DC04 Wired Metal Door Contact is engineered to provide dependable security and monitoring in various applications. Made from high-quality zinc alloy, it offers durability and longevity, making it suitable for use in challenging environments such as industrial or residential settings.

In addition, the unit is designed with user safety in mind, incorporating tamper-resistant features to prevent unauthorized access or tampering. Whether used in a home security system or a commercial facility, the XG-80DC04 Wired Metal Door Contact offers peace of mind, knowing that your property is well-protected.

Key Feature

Durable Construction:	Crafted from zinc alloy, ensuring long-lasting performance.
Compact Design:	Measuring just 48 x 24 x 15 mm, it fits easily into tight spaces.
Versatile Application:	Ideal for garages, fire doors, automation systems, iron doors, and cabinet doors.
Flexible Configuration:	Available in NC (Normally Closed) with optional NO (Normally Open) or COM (Combined NO and NC).
Accurate Detection:	Provides a sensing distance of 25-35mm for precise monitoring.

Design

Compact design with dimensions of 48 x 24 x 15 mm, making it ideal for tight spaces.

Material

Constructed from durable zinc alloy, ensuring long-lasting performance in harsh environments.

Sensing Distance

Provides a precise sensing range of 25-35mm, ensuring accurate monitoring and detection.

Specification

Model Number:	XG-80DC04
Material:	Zinc Alloy
Size	48 x 24 x 15mm
Color:	Silver
Sensing Distance	25-35mm
Wire Length:	260mm
Type:	NC, Optional NO or COM
Applicable Scenes :	Garage, Fire Doors, Automation, Iron Doors, Cabinet Doors
