

# XL-100

## Smart Door Lock System

## Smart Door Lock System

The XL-100 Xtreme Guard is a versatile smart door lock designed for secure, keyless entry. It supports multiple unlock methods, including fingerprint, RFID card, password, mobile app, remote, and Bluetooth, making it ideal for modern residential and commercial use.

### Key Features

Multi-Method Access:	Fingerprint, RFID, password, mobile app, remote, and Bluetooth.
Quick Recognition:	Unlocks in less than 0.5 seconds with one-touch fingerprint access.
Durable Build:	Made with aluminum alloy and features a compact design.
Emergency Power:	USB emergency power supply for reliable access even during power interruptions.
High Storage Capacity:	Stores 100 fingerprint sets, 1,000 passwords, and 1,000 cards.

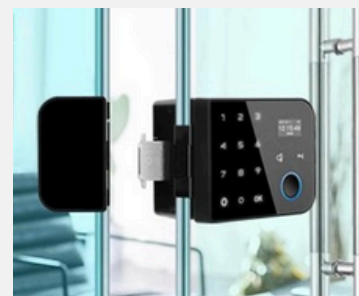

### Double-Open Glass Door

Applicable for double-open frameless glass doors, enhancing accessibility for two-door configurations.

### Fixed Glass

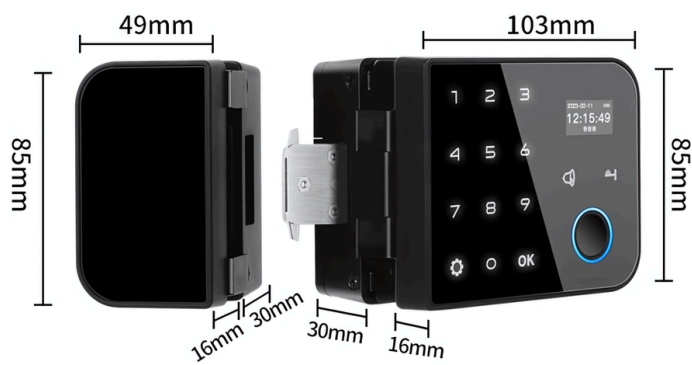

Ideal for single-open frameless setups where one side is fixed glass, providing secure access.

### Door Frame/Wall

Compatible with single-open frameless designs where one side is a door frame or wall, ensuring stability.

# Dimension

## Reliable Fingerprint Access

High-speed recognition for fast, seamless entry.

## Convenient RFID Access

Card-based entry for authorized users without PINs.

## Secure Password Entry

Personal PIN codes for added security and flexibility.

## Remote Access via Mobile App

Control access and monitor entry in real-time from your smartphone.

## Remote Control Access

Effortlessly unlock doors from a distance, granting entry with just a click of the remote.

# Application

- Residential Homes: Ideal for convenient and secure entry.
- Office Security: Effective for managing access in commercial spaces.
- Institutions: Suitable for securing entry in educational and healthcare facilities.

# Specification
